

**Faster Repairs. Better Results.**

# HANDHELD

## Accelerated Curing System

Rapidly cure fillers and coatings in three minutes or less with the REVO Handheld. This powerful, lightweight tool is ideal for fast spot repairs, but can also be used for a variety of other applications. With the REVO Handheld, you can soften glass seals, heat up aluminum to repair aluminum-body vehicles, push out a dent, or remove emblems, vinyl graphics and adhesives. The REVO Handheld allows you to get more repairs done faster, saving you time and money.

## Features & Benefits

### Multi-Functional Tool

In addition to rapidly curing fillers and coatings, REVO Handheld is well suited for many other applications. It can be used for aluminum repair, dent removal, emblem and adhesive removal, bumper repair or softening glass seals.

### Up to 80% More Paint Shop Throughput

REVO Accelerated Curing Systems allow you to do more high-quality repairs in less time. Using short wave electric IR technology, these revolutionary systems cure filler and coatings quickly from the inside out. Curing time for both prep and paint phases of repair can be reduced by hours, freeing up your technicians to complete additional repairs.

### Easy-to-Operate Controls

The REVO Handheld is extremely easy to use. There are no special power requirements; the unit simply connects to any 110-volt outlet. REVO Handheld turns on and off with a simple switch and is ready to use as soon as you turn it on. Lightweight and featuring an ergonomic handle, the REVO Handheld is easy to move around.

### Quick Heating & Cooling Times

The REVO Handheld lamp reaches curing temperature in less than a second and cools down rapidly. The unit can be turned on only when needed and is safe to touch shortly after being turned off. Extended panels on the REVO Handheld allow the unit to be placed on the ground without damaging the lamp or burning the floor.

### Expert Support & Service

All REVO Systems are backed by Global Finishing Solutions to provide support and reliability. Each system has been expertly designed specifically for the automotive repair industry. And with on-site training available, learning to use any REVO System is easy.
